## The Perfect Fit...

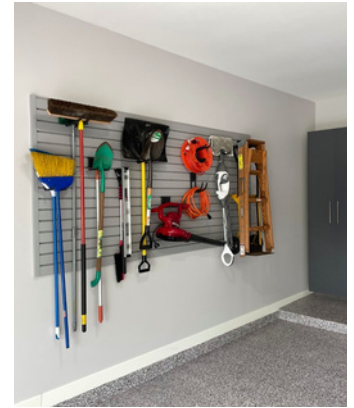

## Modular Design

We can easily customize your storage system to meet your needs. Whether you need just a few cabinets or an entire garage interior.

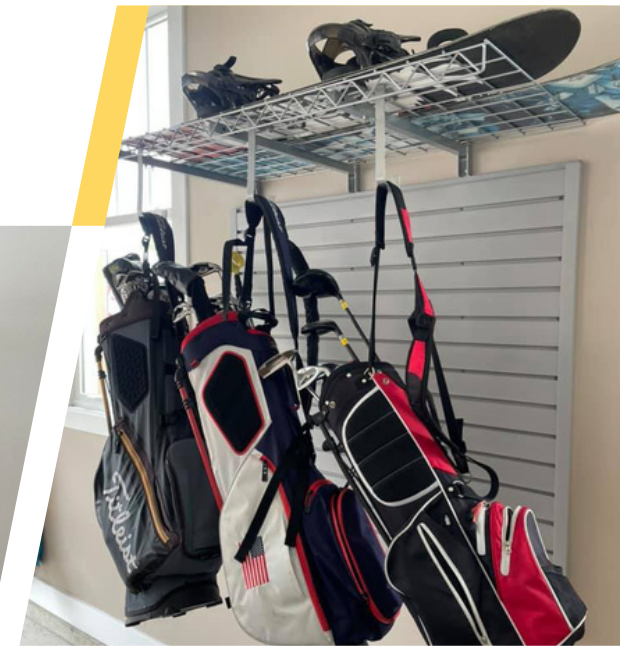

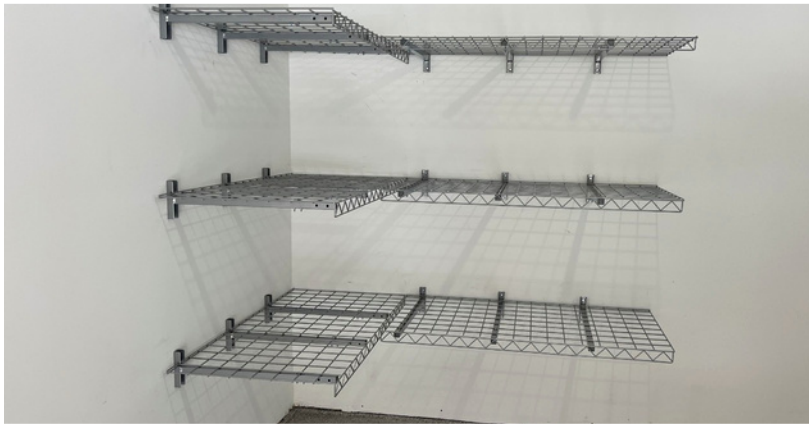

## SLAT-WALL

- We install onto wood, drywall or cement
- Strong & durable Cellular Foam PVC
- Cleans easily and is impervious to water
- Holds more than 100 pounds per hook
- Flame retardant
- Made in America

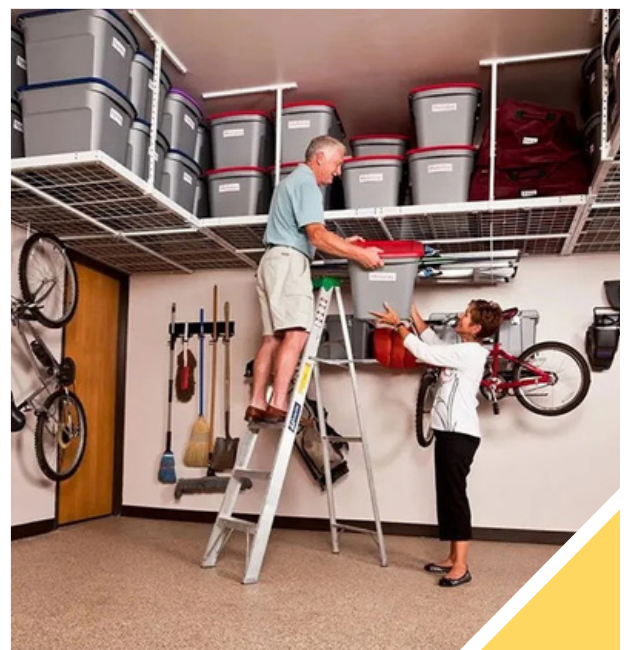

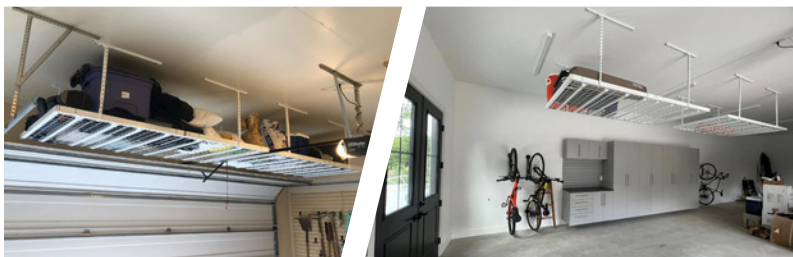

## STEEL SHELVING

Strong shelves up to 800 pound capacity

## OVERHEAD STORAGE

- Strong and durable steel alloy
- Rated to support up to 800 pounds depending on the model you choose
- Adjustable heights to fit any storage need without obstructing the operation of your garage door.

## CONCRETE COATING

Basements, Patios, Mud room

Broad Range of Chemical Resistance, and 4x More Abrasion Resistance than Epoxy

### Colors with High Gloss Retention.

Polyaspartic coatings are UV, impact and abrasion resistant. We offer many standard colors and we can also order custom color blends. Most garage floors are installed in one day.
