

# Floor Colors

## Base Colors

Slide-Lok flooring systems have many color options that work well with residential, commercial and industrial applications. Slide-Lok's base colors comprise 8 standard shades perfect for both solid color and chip/flake floor coating systems. Pairing base colors with 41 standard chip and flake blends with varying broadcast rates create a truly unlimited amount of flooring options. Custom base colors in addition to chips and flakes are also available depending on your market. Consult your local Slide-Lok dealer for color availability and floor coating options.
